

PRAJAKTA PRAMOD DANGAT

DEVOPS ENGINEER | AWS CLOUD | CLOUD & INFRASTRUCTURE

9699282940 • prajaktadangat448@gmail.com • linkedin.com/in/prajakta-d-619086315 • github.com/Prajakta-Dangat

PROFESSIONAL SUMMARY

Motivated B.Tech E&TC; fresher (2022–2026) aspiring to build a career as a DevOps Engineer / AWS Cloud Engineer. Strong foundational knowledge of AWS Cloud, DevOps practices, Infrastructure as Code, containerization, Kubernetes orchestration, CI/CD, Linux, networking, and monitoring. Hands-on experience through academic and personal projects involving AWS, Terraform, Docker, Kubernetes, Jenkins, GitHub Actions, and Linux. Passionate about cloud automation, infrastructure management, application deployment, system reliability, and continuous learning.

TECHNICAL SKILLS

Cloud & AWS: AWS EC2, IAM, VPC, S3, EBS, AMI, Elastic Load Balancer, Auto Scaling, Route 53, CloudWatch, CloudTrail, EKS, EFS, RDS, DynamoDB, SNS, WAF

DevOps & Automation: Terraform, Docker, Kubernetes, Jenkins, Git, GitHub, GitHub Actions, CI/CD, Ansible

Monitoring: Prometheus, Grafana

Operating Systems: Linux, Windows

Programming: Python, C

Databases: Amazon RDS, DynamoDB

Networking: TCP/IP, DNS, VPC, CIDR, Subnetting, Route Tables, Internet Gateway, NAT Gateway, Security Groups, Network ACLs, Load Balancing

PROJECTS

01. DOCKER & KUBERNETES APPLICATION DEPLOYMENT

Technologies: Docker, Docker Hub, Kubernetes, AWS EKS, YAML, NetworkPolicy, LoadBalancer

- Built a containerized web application using Docker and created a custom Nginx-based Docker image.
- Published the Docker image to Docker Hub for centralized image storage and deployment.
- Deployed the containerized application on a Kubernetes cluster using Pods and YAML manifests.
- Configured a Kubernetes NetworkPolicy to restrict network traffic and allow application traffic through port 80.
- Exposed the application externally using a Kubernetes LoadBalancer Service.
- Implemented the workflow: Docker Image → Docker Hub → Kubernetes Pod → NetworkPolicy → LoadBalancer.

02. SERVERLESS STUDENT MANAGEMENT SYSTEM

Technologies: AWS Lambda, API Gateway, Amazon S3, DynamoDB

- Developed a serverless student management application using AWS Lambda, API Gateway, Amazon S3, and DynamoDB.
- Hosted the frontend application on Amazon S3 and integrated backend functionality through API Gateway and Lambda.
- Implemented CRUD operations for efficient student data management.
- Used AWS serverless services to build a scalable cloud-based application without traditional server management.

PROJECTS (CONTINUED)

03. STUDENT & EMPLOYEE ATTENDANCE MANAGEMENT SYSTEM USING FACE RECOGNITION

Technologies: Python, OpenCV, Face Recognition

- Developed a Python-based attendance management system using OpenCV and face recognition technology.
- Automated attendance recording for students and employees using facial recognition.
- Implemented face detection and recognition to identify registered individuals.
- Automated attendance recording to reduce manual effort and support efficient tracking and reporting.

CORE DEVOPS KNOWLEDGE

- **Cloud Computing:** AWS infrastructure and cloud services
- **Infrastructure as Code:** Terraform
- **Containerization:** Docker
- **Container Orchestration:** Kubernetes / AWS EKS
- **CI/CD:** Jenkins, GitHub Actions
- **Version Control:** Git & GitHub
- **Linux:** Basic Linux administration and command-line operations
- **Networking:** VPC, Subnets, Route Tables, Security Groups, Network ACLs, Load Balancing
- **Monitoring:** Prometheus and Grafana
- **Automation:** Ansible

EDUCATION

TPC T'S COLLEGE OF ENGINEERING, DHARASHIV

B.Tech — Electronics & Telecommunication Engineering (E&TC;) | 2022 – 2026

Higher Secondary Education — 12th: 88.50%

Secondary School Certificate — 10th: 87%

LANGUAGES & STRENGTHS

Languages	English • Hindi • Marathi
Strengths	Problem Solving • Quick Learner • Teamwork
Career Interests	DevOps Engineer • AWS Cloud Engineer • Cloud Engineer • Cloud/DevOps Engineer

Fresher: Open to entry-level opportunities in DevOps, AWS Cloud, Cloud Infrastructure, and related roles.
